

Weekly Progress Report – Week 03

Name: Nitish Kumar

Roll No.: _____

Department: B.Tech CSE

Project Title: _____

Week: 03

Duration: _____

1. Objectives of the Week

Continue developing project modules, improve functionality, integrate components, and perform testing.

2. Activities Completed

Developed additional features, integrated frontend and backend modules, enhanced the UI, tested application modules, fixed bugs, and optimized code.

3. Milestones Achieved

Completed major project modules, integrated core functionalities, improved application stability, and resolved most identified issues.

4. Challenges Faced

Module integration issues, runtime errors, and performance optimization challenges.

5. Solutions Implemented

Corrected integration logic, used debugging tools to resolve errors, and optimized queries and code performance.

6. Lessons Learned

Enhanced skills in integration, debugging, optimization, and software testing.

7. Plan for Next Week

Complete remaining features, conduct final testing, prepare documentation, and review the complete project.

8. Remarks

Week 03 focused on integrating project components, improving functionality, fixing bugs, and optimizing overall performance.
